

PR120-1150 AC DRILLING MUD PUMP MOTOR

DRS MOTORS AND GENERATORS ARE DURABLE. Oil and gas drilling operations run day and night, often in remote and harsh environments. Our machines provide high efficiency with minimum maintenance day after day.

PR120-1150 AC DRILLING MUD PUMP MOTOR DESIGNED FOR RUGGED AND EFFICIENT PERFORMANCE

LEVERAGE THE BENEFITS OF PM TECHNOLOGY.

The Leonardo DRS PR series Permanent Magnet (PM) motors are designed to maximize the benefits of a direct drive mud pump configuration. Inherently more efficient than a belt drive configuration a Leonardo DRS PM machine significantly lowers fuel consumption, reduces parts and maintenance expenditures and reduces the footprint and weight of the pump package.

Leonardo DRS is a leader in the design and manufacture of advanced electrical machinery, focusing on machines for demanding jobs where efficient performance and precise control are required.

BENEFITS

- Reduced maintenance - no belts, sheaves, or motor bearings
- Direct drive configuration reduces fuel consumption
- Higher motor efficiency
- Increased safety - no belts, sheaves
- Approximately 12% lower weight and 25% lower volume
- Pump can be configured for single or dual use

PR120-1150 AC DRILLING MUD PUMP MOTOR

FEATURES

- Permanent magnet field poles
- Synchronous motor eliminates slip
- Air cooled 18 pole stator winding
- Class H insulation system
- Direct mounted on pump pinion shaft
- No motor bearings
- IP 54 connection box
- Separate connection box for RTD's & space heaters
- 6 Stator RTD's; Two 100 ohm platinum RTD's per motor phase
- Pressure sensor for blower on verification
- Uses common oil field blower
- IP44 motor housing

OPTIONAL FEATURES

- Encoder
- ABS Certification
- Water cooling
- ATEX Certification

PERFORMANCE RATINGS

Ratings based on 3300 SCFM airflow and a motor temperature rise of 80°C.
Max allowable ambient 55°C

PERFORMANCE	PR120-1150
Volts	580 V rms
Rated current	900 Arms
Rated power	1150 HP
Speed at rated HP	540rpm
Torque	11,185 ft.-lbs.
Frequency at rated speed	81 Hz
Efficiency at rated speed	97.9%
Approximate Weight	7700 lbs.
