ON-BOARD VEHICLE POWER

Power comes from within. Own the edge.

Untether your mission equipment with TITAN On-Board Vehicle Power.

DRS’ TITAN On-Board Vehicle Power system generates the power necessary—on the move or at the halt—for any needs from Mission Command and Mobile Command, to Missile and Directed Energy Systems, as well as disaster and humanitarian relief efforts. Integrating directly into the Allison Transmission of light, medium and heavy class vehicles, it reduces SWaP over towed generators and provides up to 120kW of mobile power, without compromising functionality. So you own the edge.
