

Dr. Bruce Holley

Director of International Avionic Test Systems, DRS Technologies (UK)

Dr. Bruce Holley retired as a senior officer from the Royal Air Force (RAF) following a wide-ranging career which entailed designing advanced missile systems for which, he was awarded a PhD from Loughborough University;

held the position of academic director for the GD Aerosystems MSc course at RAF College Cranwell and worked with numerous international agencies on the design and analysis of advanced weapon systems. Following his RAF career, Bruce founded the company PCA Electronic Test Ltd in the UK and most notably managed it to be the preferred supplier of RF Electronic Warfare stimulation/test systems for the UK MoD and Eurofighter users. Following the purchase of PCA Electronic Test Ltd by DRS Technologies, Bruce undertook the position of Head of Air Systems for DRS (UK).
