

**LEONARDO DRS, INC.  
COUNTERFEIT ELECTRONIC PART POLICY STATEMENT**

Leonardo DRS, Inc. and its wholly owned subsidiaries (collectively, "DRS") are fully compliant to the Contractor Counterfeit Electronic Part Detection and Avoidance in accordance with DFARS 252.246-7007

Leonardo DRS product quality and reliability is critical to the mission. As such we do not use Counterfeit Electronic parts and have strong counterfeit part prevention processes. Leonardo DRS seeks to ensure that DRS employees detect and prevent the use of any Counterfeit Electronic Parts to ensure that the customer receives products conforming to contract requirements.

We have the following expectations of our suppliers and their suppliers:

- Suppliers should not supply us with any counterfeit electronic parts
- Suppliers should develop policies, procedures, due diligence processes and management systems that are reasonably designed to prevent counterfeit electronic parts from entering our supply chain and to provide transparency as to the source of any known counterfeit electronic parts

We evaluate our relationship with our suppliers on an ongoing basis, and we will consider the extent to which a supplier has failed to reasonably comply with the Counterfeit Policy Statement. If we determine that a supplier's efforts are deficient, we may take any appropriate action, including terminating our relationship with the supplier.
